

## Features

- True 1-Bit RGB color sensing
- 2 beam white LED spot focusing
- Ambient light cancellation
- Programmable spot LED Intensity
- PC based RS232 Configuration
- Programmable Red, Green, blue contrast sensing.

## User Interface

- LED Mode Indicator
- Color selection keys (col1 & col2)
- Actuation /adjustment keys (Left & Right)
- Command Set: Refer Product Manual

## Output

- RS232 Serial Communication
- Baud rate: 115200 bps  
1 stop bit, no parity bit

## Electrical Specs

- Supply: 12 VDC
- Current: ~100mA

## Application

- Standalone Color Sensor
- Compatible with Web guide Controller WGS-03
- Line/Edge Guide System
