

Features

- Microcontroller base ultrasonic Sensing
- Suitable for fast running applications
- Detection of transparent films
- Detects non sound transmissive web.
- Easy Interface with PLC control
- Analog / Digital Output versions
- EMI shielded housing

Output

- Model: US-03A5V
Analog Output: 0 to 5 V
- Model: US-03A10V
Analog Output: 0 to 10 V
- Model: US-03S
Serial: RS232
- Model: US-03P
PWM Outputs: 2 (L&R)
(For DC Actuator Driver
Eg: PWM-04 Driver)

Electrical Specs

- Input Voltage range : 5-30 VDC
- Peak Current : ~ 150mA

Interface

- Correction Bar Graph (LED)
- Calibration Key
- Sensitivity Control Key
(Refer product manual)
