

## Features

- Uses FTDI's VNC1L USB host controller IC
- Second USB interface port available via module pins if required
- USB single 'A' type USB socket to interface with USB peripheral devices
- Program or update firmware via USB Flash disk or via UART/Parallel FIFO/SPI interface

## Interface

- UART
- Parallel FIFO
- SPI interface
- Power and traffic indicator LED's

## Electrical Specs

- Supply: 5V

## Application

- Test and Measurement Equipment
- MP3 Players
- In Car Audio
- Data logging
